Government Report Citations

Citing Government Reports in APA, MLA, and Chicago

This specimen compares the same government report formatted under APA 7th, MLA 9th, and Chicago 17th conventions, including agency authorship and report numbers.

APA Form

The agency is treated as the author: (World Health Organization [WHO], 2022). The reference entry includes the report number and a URL.

Chicago Form

Notes-and-bibliography style lists the agency as author and places the report number after the title.
