Visual Media Citations

Citing Images and Artworks in Three Styles

This specimen shows figure captions and reference entries for a reproduced artwork, including the museum, city, and source URL where required.

Figure Caption

A reproduced image carries a figure number, a brief descriptive title, and attribution in the caption beneath the image.

Reference Entry

The reference entry names the artist, year, work title in italics, and the holding institution.

References

van Gogh, V. (1889). The starry night [Painting]. Museum of Modern Art, New York, NY, United States.
